Olive Lifesciences Pvt. Ltd.

About Olive Lifesciences

Olive Lifesciences Pvt Ltd is a health care organization that manufactures and supplies botanical extracts and phytochemicals used for nutraceutical formulations, dietary supplements, pharmaceuticals, food supplements, cosmeceuticals and food products. Olive Lifesciences engages in the entire spectrum of activity right from the cultivation of medicinal plants, their processing and extraction.

The company was established in 2007. Its products are manufactured in compliance with stringent global standards of plant operations, quality and safety.

Manufacturing Facility

Manufacturing facility is equipped with various extractors including continuous extraction plant. The company is positioned to offer its clients end-to-end high quality products with optimized production practices.

The entire manufacturing process is supervised and monitored by a team of highly qualified professionals with hands on experience in the specialized herbal extracts domain to ensure products of consistent quality batch after batch within the assigned time schedules.

Uncompromising Quality

Olive Lifesciences is committed in its mission to deliver a world class product range confirming to stringent International standards to its customers with quality par excellence

The Quality Control / Assurance Team are responsible for monitoring all production processes right from incoming raw material, processing and final inspection. The Company is fully integrated with the latest state of art analytical equipment.
